## R.O. SYSTEM ANALYZER

This great device allows you to set how many gallons run through each of the R.O. components before a change is necessary. Each component is displayed on the screen with a handy 'gas-gage' indicator. An audible alarm will sound when your predetermined limit is reached.

P/N	Desc
14-FLOWNIC	Monitors Flow and Filter Change

## WATERMINDER METERING VALVE

These unique, patented meter valves provide automatic shut off of a potable water system for filter replacement after a pre-determined quantity of water has been filtered.

Settings in 100 gallon increments.

Operating pressures 15 to 125 psi.

P/N	Desc
